Strong Japan-Indonesia Bonds Move Indonesia Forward ~ Making the Co-Creation Platform Functional to Deliver Solid Results to the Future ~

Since its establishment in 1970, The Jakarta Japan Club (JJC) has walked side-by-side with our members as the foundation supporting Japanese companies and the Japanese community in Indonesia.

As Indonesia advances into a new stage of growth, the business and living environments are changing significantly, and the challenges faced by member companies and resident Japanese nationals are becoming increasingly diverse. In such times, JJC is required to serve not only as a "place" where members gather, but as a "functional organization" that listens to members' voices and connects them to dialogue, policy recommendations, and practical support.

JJC will further deepen cooperation with all members, generate concrete results as a functional organization, and connect the mutual trust between Japan and Indonesia to further growth and collaboration. We will continue to contribute to the further development of the Japanese community and the sustainable progress of Indonesia.

Individual Division

Association of Japanese residents

- Provides safety and daily living information so Japanese residents in the Jakarta metropolitan area can live with peace of mind, operates the Senayan Center (Library), and hosts various events.
- Supports community events, club activities, and circles.

JJC Senayan Center (Lounge and library for individual members)

Overseas Japanese Safety Measures Liaison Council

- Holds regular meetings with the Embassy as a public-private joint initiative to provide safety information.
- Shares information on safety assurance, hygiene, public security, immigration policy updates, and other safety-related topics.

JJC Corporate Division

As a chamber of commerce for Japanese companies operating in Indonesia, the Corporate Division provides broad support for members' business activities. We also engage in dialogue with government authorities and conduct research on Japanese contributions to support the economic relationship between Japan and Indonesia.
In cooperation with the Embassy of Japan in Indonesia, JJC compiles issues and requests from businesses to present recommendations to the Indonesian government aimed at improving business and investment conditions.

1. Policy Advocacy & Business Environment Improvement

We collect member feedback through our committees and research division to identify key challenges in taxes, customs duty/tariffs, labor, and carbon neutrality. We then turn these issues into policy proposals to present to the Indonesian government.

Examples:

- Meeting between the Directorate General of Taxes and JJC Taxation Committee (May 5, 2026)
- Participation in the Japan-Indonesia Business Forum (March 30, 2026)

2. Expanding Interaction and Networking

We host networking events and social gatherings to connect members and support professional growth. We also lead local charity initiatives and disaster relief efforts across Indonesia.

Examples:

- JJC General Assembly Meeting (April 30, 2026)
- JJC New Year Party (January 23, 2026)
- Donation for Cirebon Earthquake (2022) & North Sumatera Disaster (2025)

3. Support for the Business Activities of Member Companies

We support member companies by sharing news about their products, services, and events through our email newsletter. We also offer free consultation sessions with experts in law, tax, and labor to help solve business challenges.

Examples:

- Email Distribution Service (sent every Monday)
- Free in-person consultation (held monthly, except in Aug and Dec)

4. Provision of Useful Business Information

We provide information valuable for business through seminars covering fundamental business knowledge and the latest legal systems in Indonesia, as well as via email newsletters and a members-only website.

Examples:

- Various seminars and workshops (online, hybrid, and in-person; approximately 40 seminars annually)
- Dissemination of the latest policy information and other updates via email newsletters and the members-only website (on an ongoing basis)
